I got this one, too, and already routed to Press@epa.gov

For those I hadn't already seen, I forwarded to the Area Command and highlighted the specific request in yellow so they could quickly see what is needed.

Thanks for sending this!

Subject: greetings Shaun,

Spense Havlick is writing a brief editorial for the Daily Camera and would like a brief comment. Spense would like to give EPA the benefit of doubt as he covers this story. Most useful from Shaun would be thoughts on best possible mitigation for the Animas (and Navajo Nation, etc.) and how to prevent future acid mine contamination in Region 8.

Best regards to Shaun from Boulder city council colleague.
